

3 – Tiered Prescription Drug Formulary January 2015

This formulary listing is to serve as a reference guide for the selection of cost-effective medications and does not guarantee coverage or imply therapeutic equivalence. Certain products may be excluded from your plan or require additional authorization. Please see your plan document for exact details as coverage may vary. This formulary is not all inclusive. Generic products will process as Tier 1 drugs at your lowest copay, Tier 2 contains formulary brands, and Tier 3 contains non-preferred brands and are subject to your highest copay.

This formulary is to be used with your medical practitioner to be sure that any medication selected is both cost effective and clinically appropriate. This formulary listing is subject to change, please contact the ProAct help desk number on the back of your card for the most up to date formulary and/or tier placement for your medication(s).
